

FLUOSPOT are small floodlights designed for energy saving compact fluorescent lamps, for indoor and outdoor installation. Very resistant to corrosion, they can be installed in sea side areas.

Body in technopolymer.
Diffuser in U.V. stabilized polycarbonate.
Reflectors in aluminium - External screws in stainless steel. Complete with bracket and cover for wall installation.

Using the available accessories, they can be installed on arm supports, on spike for garden lighting, and on a telescopic support as a work-lamp.
